<b>Experience</b>				
Automated Test Developer	<ul> <li>Role:</li> <li>Give a (GO or NOGO) promotion decisions on different app features depending</li> </ul>			
May 2013 – August 2013	<ul> <li>on performance test results.</li> <li>Was in charge of setting up lab machines, deploying the needed software and configuring systems for performance testing</li> </ul> Accomplishments:			
BlackBerry, Mississauga , ON	performance tests for va umbrella.  • Co-designed and impler data from the database	mented a centralized database arious teams within the autominented a front end webpage to grew featured and performin	o display and organize the	
Automated Test Developer	Role:			
May 2012 – August 2012	<ul> <li>for testing performance</li> <li>Writing reports, maintain regarding progress and the and frameworks.</li> </ul>	ning various automated scrip aspects. ning wiki pages and communithe status of the developed and sions on how to use the differ	nicating with various teams ad under development scripts	
Research In Motion, Mississauga, ON	<ul> <li>Developed 3 framework the collected data and up</li> <li>Ran multiple training se</li> </ul>	scripts in Java to control and as, responsible for collecting ploading to a dedicated serve assions.  Speed a GUI tool to simplify us	performance data, parsing r.	
Instructional Assistant Intern ( IAI)	Role: Taught (ENGINEERING through delivering daily Tutoria teaching assistants.			
August 2011 – April 2012	<ul> <li>Developed a multitude of raw data about students</li> </ul>	source project utilizing GitHu of Python programs/scripts fo (e.g. processing lab marks an	r extracting and processing d extracting relevant stats)	
McMaster University, Hamilton, ON	developing tutorial slide	00 students, and administered		

Swing Manger	Role: Manage Restaurant staff (lead, monitor, and follow up), Handle customer		
August 2010 – July 2011	complaints as well as controlling labor and doing administrative paper work.		
	Accomplishments:		
McDonalds Restaurant,			
Hamilton, ON	Awarded EOM (Employee of the Month) more than once.		
	<ul> <li>Made Highest Part-time position possible (Swing Manager) within 2 years of being hired</li> </ul>		
	part-time.		

## **Projects**

Indoor Mapping System (Graduation Project) 6 members, McMaster University, Hamilton,ON	<ul> <li>Goal of project to design a vehicle to autonomously map a building floor and generate a 2D map of it, with point of interest (e.g. doors,name plates) shown at their respective locations.</li> <li>In charge of back end integration, designing of databases, communication modules, generating 2D map out of processed sonar data.</li> <li>Utilized a variety of technologies (mongoDB, redis , Flask (Python Webframework) , javascript )</li> <li>Designed, implemented and deployed the web front page.</li> <li>Source Code available on GitHub (https://github.com/s-ltf/IMS/tree/draft)</li> </ul>	
RIM – internal projects	<ul> <li>Parse through different logs and upload them through python scripts</li> <li>Designed multiple batch files and shell scripts to collect data.</li> <li>Co-designed and Developed a C# based tool to communicated with devices through command line and simplify the usage of the different frameworks.</li> </ul>	
PWE open source project	<ul> <li>Provides Wrapper functions for popular online APIs,i.e. weather,geolocation and other</li> <li>Source available on <b>GitHub</b> (https://github.com/s-ltf/py-web-essentials)</li> </ul>	
HiCal  Course Project, 5 members, McMaster University, Hamilton,ON	<ul> <li>Was Team leader, lead in planning and executing the program from specifications collection to final debugging stages</li> <li>Was in charge of UI and final compiling and testing of the program.</li> <li>Developed the program entirely using the Java language.</li> <li>Our team was one of the few who got a perfect score.</li> </ul>	

## **Skills and Knowledge**

- Used **Python, C#**, **SQL**, **noSQL**, **Java**, **Shell scripting (Bash/Batch),C++/C** and Other Languages in various assignments for my courses and on projects during my coop terms
- Basic knowledge of HTML, CSS, PHP and JavaScript/JQuery.

## **Education**
